

Project Model

STAM Interactive Solutions Project Model

Ideal Outsourcing Model

STAM offers to execute eLearning projects using a flexible and linear model. We call this the Project Model. Under Project Model, you will have the flexibility of engaging us on a short term or a long term basis.

Flexible Model

You will have the flexibility to engage STAM for a specific individual function or the complete project. STAM has the experience of executing engagements under the Project model for world renowned eLearning companies. We have also provided LMS solutions, Translation Services, Web development services and other add on services to several clients worldwide.

The following is a partial list of functions where STAM will be able to provide value added services.
